

#### 1082/1088 E.B.C.™ Automatic Airpot Coffee Brewer

(with Hot Water Faucet)

#### 1082XL E.B.C. Extra-Low Automatic Airpot Coffee Brewer

(with Hot Water Faucet)

#### 1080/1086 E.B.C. Automatic Thermal Coffee Brewer

(with Hot Water Faucet)

#### 1092 E.B.C. Dual Automatic Airpot Coffee Brewer

(with Hot Water Faucet)

#### 1090/1091 E.B.C. Dual Automatic Thermal Coffee Brewer

(with Hot Water Faucet)

The E.B.C.™ systems have added Electronic Brewer Control technology to our standard electro-mechanical brewers. Many of the same body configurations and component parts of our standard electro-mechanical units were used, making service quick and easy. The E.B.C. system uses a touch keypad and lights, plus an audible signal. The lights and signal guide the user through the different brewer operations.

#### Features

- **Precise brewing temperature** is established and maintained throughout the brew cycle, providing cold brew lockout and ensuring full flavored coffee and faster brewer recovery.
- **Countdown Quality Timer™** will signal the end of preset coffee holding time.
- **After Hours™ Mode** will automatically reduce water temperature when not in use, saving energy and increasing component life.
- **Brew cycle timer** eliminates the risk of double brewing during brew cycle.
- **A high level of commonality of parts** with other Bloomfield models will significantly reduce the inventory of spare parts required to service many body styles.
- Exclusive design provides **easy access to components** for quick service.
- **Water volume adjustments** can be made with ease, no panels to remove or tools required.
- Built-in **pour over feature** provides flexibility.

- **Ready-to-Brew light** indicates the proper water temperature to help eliminate the guesswork in brewing.
- **Electronic sensor** recognizes water temperature extremely accurately for more consistent product.
- **Superior sprayhead design** spreads water over the coffee grounds, creating agitation and a floating action that completely saturates the coffee to capture the full, rich essence.
- **Unique water valve with built-in flow control** on automatic models assures consistent operation at 20-80 p.s.i.
- **One-piece drawn stainless steel water tank** has a superior design for extended life.

# BLOOMFIELD

## MODELS

**1082, 1082XL, 1088, 1080, 1086, 1092, 1090, 1091**

- Independent front-mounted hot water faucet allows drawing of hot water without affecting coffee taste or brewing cycle.
- **Rugged base rails** provide stability and strength, while minimizing brewer height and locating placement of airpot.
- High quality easy to clean **stainless steel construction**.

### Accessories

Bloomfield offers a full line of airpot, thermal servers and coffee grinders.
