conveniently
replenishes
water to meet
high-use needs

Pourover model
perfect for
home use
and low-traffic
environments

Out of BUNN's 50-year heritage of designing the highest quality brewing equipment comes My Café™ – the ultimate in single-serve, pod brewing systems. Designed to meet today's demand for perfect tea or coffee in about 30 seconds, My Café offers innovative brewing capabilities that reflect BUNN's position as a world leader in beverage equipment. This commercial grade system brings perfect beverages to the home or office with **ease, consistency and reliability.**

- **Brews BUNN Gold Cup coffee**
- **Patented Pulse Brew™ technology** steeps the leaves for great tasting tea
- **Works with the widest variety of pods**, in different sizes from 45 to 61 mm
- **Precision jetstream sprayhead** saturates grounds more fully and evenly for deeper, richer, more flavorful coffee
- **Quick brew** makes a cup of coffee in about 30 seconds, tea in about 50 seconds
- **Brews back to back** with consistent temperature to allow more than 60 cups per hour
- **Exclusive internal heating tank** holds water at the perfect on demand, ready-to-brew temperature
- **Portion/volume control** permits brewing to preferred strength
- **2-year limited warranty**

SIMPLE STEPS TO PERFECT COFFEE, TEA, AND OTHER HOT BEVERAGES

STEP 1
Push the button at the top of the brewer to open the pod holder.

STEP 2
Insert pod in pod holder and push to lock in place.

STEP 3
Press coffee button to infuse pod with pressurized water for optimum extraction.
OR
Press tea button for a pulse brew to create a steeping action.

STEP 4
In about 30 seconds enjoy your perfect beverage!

- **Dishwasher-safe pod holder.**
- **Load and unload with one hand.**
- **Works with a variety of coffee pods and tea bags, no loose grounds to measure and no pot to clean.**
- **Select brew for coffee or tea and adjust volume to control strength.**
- **Hot water dispense for cocoa, soups, instant cereal and cooking needs.**
